Package: BioCal (via r-universe)

September 12, 2024

Type Package

Title Calculate Biomass Based on Forest Data

Version 0.1.0

Author Dr. Andre Nakhavali

Maintainer Dr. Andre Nakhavali <nakhavali@iiasa.ac.at>

Description This package provides tools for calculating the biomass of
trees based on country, species, compartment, diameter, and
height. The calculations use specific allometric equations
tailored for different tree species across various
biogeographical zones. Use four spaces when indenting
paragraphs within the Description.
